

## Saving Time

Nickel-plated toaster, complete with cord, \$10.00.  
Other designs, \$8.00 to \$19.50.  
Percolators, \$7.50 to \$45.00.

We welcome comparison of our prices with goods of equal quality

**ELECTRICITY** is, perhaps, the greatest household time and labour saver of to-day. The gift of a reliable electrical appliance always finds favour in the eyes of the housewife.

There are many from which to choose—percolators that give a new meaning to the word "coffee," and toasters that make breakfast the most pleasurable meal of the day.

All are practical, durable and reasonably priced.

**Birks**  
Diamond Merchants Goldsmiths Silverware

Henry Birks & Sons Limited

## ATTENTION!!!

**FOR SALE OR TO LET**—16-room, newly decorated house suitable for Fraternity House or Private Hospital—of 4 flats—with 2 baths and toilets—hot and cold water on each floor. Large garage in rear—will hold 2 or 3 cars. Especially suitable for professional men. Location, 110 St. Famille St., cor. of Prince Arthur. For further particulars apply to MR. KAVANAGH, 372 BLEURY STREET.

Established 1817.

**THIS BANK IS ALWAYS PLEASED TO PLACE ITS FACILITIES AT THE DISPOSAL OF STUDENTS. IT PAYS INTEREST ON ALL SAVINGS DEPOSITS OF ONE DOLLAR AND UPWARDS, AND HAS 22 BRANCHES IN MONTREAL.**

## FAVOURABLE START FOR RELIEF FUND

**Committee in Charge Well Pleased with Opening.**

**GENERAL SYMPATHY.**

**Professors to be Approached as well as Students.**

The all-University campaign for the relief of destitute students in Central Europe began in all faculties to-day. Taking all in all prospects are very favourable indeed. The general student-body appears fully alive to the true facts of the case, and despite a very natural post-holiday tightness of the individual money-market the appeal would seem to have struck home.

During the next few days all faculties will be thoroughly organized on the class-unit basis, and it is planned to approach every man personally for his quota. In many individual cases the ordinary fifty-cent subscription has been generously exceeded.

The students, it is understood, are not to be the only ones who will be asked to contribute for the relief of their European comrades. Starting to-day an active campaign is to be waged among the members of the professoriate of all the faculties.

The following is an abbreviated list of a few of those who have signified their intention of aiding the chairman, "Bob" Hall in the drive:

Arts:—C. Mathewson, "Sid" Pierce;

E. C. Amaron, F. H. Walter.

Commerce:—Brewer and McCullough.

Medicine:—Walter Stenson, "Don" Gordon, "Cec" Hay, N. M. Vineberg.

Science:—Harold Mott, "Jeff" Russell, "Dave" McKee, "Ted" Brown.

Law:—John Long, Duncan W. W. Macklaier.

Dentistry:—L. G. Robinson.

The committee in charge have taken no pains to conceal their satisfaction at the progress of the campaign so far. It is, of course, a little early as yet to give more than the very remotest guess at the probable final result, but everything is well away.

## THE FACTS ABOUT THE SONG BOOK

**2,000 Copies Still Unsold—Student Support Needed.**

At a meeting of the Student Society held last March it was unanimously decided by the students that a new song book should be compiled to take the place of the old one which was out of date and as the Centennial celebrations were to take place in the fall it was thought by all that it would be the most opportune time to publish it.

An excellent committee was formed to look after the publishing and compiling of this book. They did their work in fine style and as a result McGill has a wonderful song book, one to be proud of.

It was intended that these books should be on sale at the Reunion, but such was not the case, due to publisher and many other unforeseen reasons. As a result very few books were sold. There are now nearly 2,000 books on hand and if they are not sold it will mean quite a loss to the students society.

When the Song Book was first proposed at college, keen interest was very obvious but now that it is a reality a great many seem to have decided not to purchase one; the result is that if the remaining copies on hand are not sold the Students' Council will lose on this agreement.

It is certainly a good investment and a necessity to every member of McGill. It is therefore, with a touch of college support that every student is asked to buy a copy.

These books may be bought at the Janitor's office in any of the faculties.

Operator: The party doesn't answer. Stewed: Yesh, I know the party is over, what I want ish the ambulance.

## WHAT'S ON

**TO-DAY**

12.00—R. V. C. Partial Society.  
4.00—Sci. '24 Hockey Practice.  
5.00—Lecture: Science Bldg.  
5.00—Lit. Exec.—Union.  
5.15—Swimming Practice, Central 'Y.'  
5.15—Comm.—Arts '22 Slass Hockey.

Economics Club.  
News Board Meeting.  
Jan. 27th.  
Union Formal.

## DETAILS OF TRAMP ARE COMPLETED

**Weather Cold, But Lots of Snow.**

**GOOD PROGRAMME.**

**Few Tickets Still Unsold at Union—40 Cents Apiece.**

All plans have been completed for the first outing of the year of the Snowshoe Club. All the members are enthusiastic over the prospect of a joint tramp with the fair trappers of the R.V.C. With all enthusiasm displayed there are a few tickets overlooked and these are to be found on sale at the Union at the absurdly small price of forty cents. About fifty tickets have been disposed of in the R. V. C. alone which assures lots of attraction for the men—and they are still selling.

Last year several very successful and enjoyable events of this kind were held and it is stated that without doubt this year's programme holds still better things in store. The tramp over the mountain will be held over a new and carefully selected route, the up-going to be easy and enjoyable, the down-going to be swift and even more enjoyable. The party will leave the Union at eight o'clock, and will return thither for refreshments and music and a short meeting.

A notice elsewhere informs everyone as to where snowshoes may be procured. A large crowd is expected to be on hand to keep the introduction committee busy. The chaperones are Prof. and Mrs. Basil Williams, Miss Nichol, and Prof. Matthews.

**NEW ASSOCIATION'S SLOGAN IS "A LIBRARY ON EVERY SHIP."**

The American Merchant Marine Library Association, which was recently organized to continue the work of the American Library Association in placing useful books on American ships, announced recently that it had been endorsed by the Executive Committee of the American Steamship Owners' Association, and it has adopted the slogan, "A Library on Every Ship."

During the war the American Library Association was enabled to place 250,000 books on American Merchant Marine vessels. These books are made up into libraries so that they can be shifted from one ship to another. This circulating library of the sea, it was said, has been promised the support of the Carnegie Foundation if adequate subscriptions are also forthcoming from ship owners and others interested.

## PHOTOGRAPHS FOR ANNUAL WANTED NOW

**Juniors Must Have Pictures in by 28th.**

**LAST CHANCE.**

**Clubs Must Make Appointments at Notman's Immediately.**

Owing to the great importance of getting the editorial matter for the 1913 Annual down to the printers on schedule time, the Annual Board will be obliged to close the individual photography lists on the 28th of this month. To date the following have neglected to pay the necessary little visit to the Photocraft Studio situated on St. Matthew St., just above St. Catherine.

Juniors who have not yet had their photographs taken:

**Arts.**

Brown, Cantley.

**Science.**

## PHILOSOPHERS TO HEAR DEAN LAING

**On Feb. 6—Introduction by Sir Arthur Currie.**

After nearly two months of apparent inactivity, the Philosophical Society is to come to life again with greatly renewed energy in less than two weeks' time. All those who attended the last meeting, when Mr. Klineberg gave his paper on a Definition of Religion, will be looking forward to the next meeting, and it is expected that many others will be there to swell their ranks.

The next meeting is scheduled for Monday, Feb. 6, when Dean Gordon J. Laing, of the Faculty of Arts, will give an address on Philosophy and the Arts course. This will be the first appearance of the new Dean in any public way before any body of the Arts men. In view of this fact Sir Arthur Currie has consented to introduce Dean Laing on this occasion, and will no doubt have something to say that will be of interest to everyone. Although the meeting is being held under the auspices of the Philosophical Society, it is hoped that it will serve a wider purpose also. Dean Laing will by that time have been in his new office for over a month, and there is no doubt that he has many things to say to the Arts students. For this reason the executive of the Philosophical Society are glad to announce that this special open meeting has been arranged.

Further details will be announced as the event approaches nearer.

## THE FUTURE OF EXAMINATIONS.

The abolition of the examination system is a subject which is at present attracting much attention throughout universities all over the world. Many eminent and competent authorities have given opinions for and against with the more enlightened generally in favor of a change being made in this direction, and prophesying one even more quickly than is at present thought possible. The opposition to a new standard of comparison seems to be based upon old and established methods of doing things. And yet not altogether. For many who really defend the present system acknowledge its weaknesses, but refuse to countenance the reforming movement until it brings forward a concrete plan for new methods of classifying students.

The arguments against are many and oft-heard, though nevertheless true. They can be classed under two heads, unfairness and lack of educational value. Those coming in the first group are fairly obvious. Examinations are after all a matter of luck to a large extent. So much work has been covered. There is time for so many questions. Which topics will be picked out for discussion? Those who are more fortunate than the rest devote more time to the chosen parts of the work and so get better marks. They are rated in the eyes of the world as better students. Yet their class-mates worked quite as conscientiously. Then again the examination system leads to that highly undesirable phase of student life, cramming, a period of nerve-racking and head-splitting study brought on often by neglect of work, but very often again by a belief that studying a subject too far ahead of examination time will lead to forgetfulness to the material covered. And the neglect can be traced in the majority of cases to the lack of a positive force towards regular studying.

Other objections, such as the injurious effect of the nervous strain and the uselessness for purposes of future remembrance of last-minute study are not lacking, and all together form a formidable weight of argument. Against them is brought the statement, also true, that examinations make students study some time anyway, and as a means to that end, are justifiable. Therefore the main objective of reformers is to convince the old-timers that there is another and better means of making students work, and there is.

A system of essays and theses, of practical home work requiring reading and thinking upon the courses would necessitate a student working to keep up with the class, and would bring out quite as well the differences in ability so sought after by examiners. It would involve more work upon the professors in looking over the papers handed in, but if quality and not quantity were insisted upon it would not be so hard upon them. And as for the students, though it would make them work harder all through the term, yet they would appreciate the removal of the examination cloud from the horizon and welcome the change wholeheartedly.

Undoubtedly the examination system is coming to an end some time in the near future, and suggestions are needed now to enable us to institute a good working plan in their stead. No merit or originality is claimed for the above, but it is one worth thinking over.

The above applies more strictly to Arts. Future editorials on the subject will deal with the problems of the other faculties and how they are to be dealt with.

## FAULTS.

What do you suppose this world would be like if people did not have any faults? If we were all perfect there would be no variety, and variety is said to be the very spice of life. It is presumptuous to imagine a faultless world, and since faults are bound to exist it is well to consider them.

Everybody has his faults—there is so much bad in the best of us though perhaps no two persons have the same ones. They are as varied as they are numerous, hence it behooves everyone to judge as he would be judged and be as generous as possible in measuring his fellowman. It is not charity to overlook or forgive a fault in a friend, because he may be tolerating a very similar trait in you.

Rare indeed is the person who does not know what his faults are. He may strive to ignore them, but deep in his heart he always knows where his weaknesses are. We know ourselves well enough to realize the point at which we begin to give way and let faults overcome our better judgment.

Faults are not of necessity bad in the sense that we consider most things bad. They are merely imperfections, and a slight imperfection is not ruinous provided the basic fabric is good.

## EDITORIAL NOTE.

All McGill will welcome the return of Dr. Stephen Leacock from a very successful tour in England, in which country he is as popular as on this continent. Dr. Leacock's boat arrived in New York yesterday, after a stormy passage, and his presence is expected in this city to-day. He will resume his lecture courses at once.

## ILLUSTRATED LECTURE FOR SCIENCE STUDENTS

Mr. T. Dantzig, of the SKF. Industries Incorporated N. Y., will deliver a lecture to the Science Undergraduate Society this afternoon at 5 p.m., in room 33 of the Engineering Building.

His subject will be "Anti-Friction

Engineering" and its importance to the Scientific world. A lecture of this kind could be made very interesting and instructive without any illustrations or practical demonstrations, however Mr. Dantzig will have an abundance of interesting slides and actual models. McGill has been very fortunate in having this lecture delivered here and it is hoped that the students will not let such an opportunity slip by.

## ADDITIONS TO LIBRARY

January 7th to January 14th, 1922.

Adams, K. Elizabeth.—Women professional workers.

## S.C.A. OF R.V.C. HELD MEETING YESTERDAY

Yesterday at one o'clock a short business meeting of the R. V. C. S. C. A. was held in the common room.

A letter in which Miss Grace Beckwith resigned her position on the editorial board of "The Canadian Student" was read and it was decided to accept her resignation and appoint Miss K. Wood-Legh to take her place.

When the subject of a university service to be held on the last Sunday of February was mentioned the meeting showed itself to be in favour of such a plan.

The girls were reminded that some of those who had attended the Shawbridge conference had promised their assistance in raising money for the S. C. M. among people outside of college, and more volunteers for this work were called for.

Any who wish to help are asked to give their names to Miss Wood-Legh or see Mr. McKay as soon as possible.

The president Miss Kerr, spoke of a letter which she had recently received from Miss Rutherford of Toronto University who this year represents the women's colleges on the General Committee of the S. C. M. In this letter, Miss Rutherford said that she felt that one woman student could not fairly represent the feelings of several colleges and suggested that one traveling secretary for the women should be appointed.

This suggestion will be discussed at the next meeting so members of the S. C. A. are asked to consider the matter.

## HOW TO SKI

For this turn find a moderate slope, preferably with the loose snow about five or six inches deep. It is useless to try to learn to telemark on a hard surface.

Run down the slope, then to start the turn (to the left) take up the telemark position. This is as follows, the right foot leading, with the right leg bent at the knee and from the knee downward should be perpendicular to the ski. The left knee should be supple and not so much bent at the knee as the right one. The left heel will be raised and the point of the left ski should be about even with the right ankle. Get yourself used to this position remembering to keep the skis close together and not wide apart. Of course after you have mastered the turn, falling into the telemark position and turning will be done practically simultaneously.

To turn push out the right heel so that the skis take up a convergent position, slightly flattening the right ski against the slope. This resembles the stemming position the main difference being that the points of the skis are not together as in the stem. As soon as you have taken up the above position you will begin to come around, and you have only to hold that position to complete the turn.

In this turn as in all steered swings the steering action is produced by the ankle between the skis and not by any body movement. So do not lean in to start the turn but it will be necessary to lean in slightly at the end of the turn. Quite a few people get the turn properly but fall outwards at the end of it. They then come to the conclusion that they should have leaned in at the start of the turn which is of course wrong. Therefore do not lean in to start the turn but do lean in slightly at the end of the turn.

To turn to the right merely reverse the rights and lefts above.

To prevent you trying to force the turn by leaning in keep the eyes fixed on the point of the back ski. Do not poke forward the leading ski but keep the lower part of the leading leg perpendicular to the ski. Do not let the tip of the back ski come behind your right foot or the skis will cross behind. Keep the up-turn of the back ski pressed against the leading foot, this enables you to maintain the skis in the same relative position, which is essential. It would be well to consult again the eight "General Direction for Turns" which were in the Daily some time ago.

To make a short telemark keep the weight back on the back leg and increase the angle between the skis giving a greater push outwards with the heel of the leading foot.

The weight should be almost entirely on the back foot till the leading ski has come around when your weight can be thrown on the heel of the leading foot.

For a long turn only weigh the back foot to start the turn when immediately bring your weight on the leading foot. Of course only a small angle between the skis is necessary in this case.

It might be well here to say a word about the use of the telemark. Where there is any possibility of side slipping such as on a road or where the surface is hard the telemark is not a very good turn for while the telemark position for fore an adft balance it is poor for side balance thus a slight side slide may easily overthrow the skier. In deep snow however where side-slipping is not a menace the telemark is by far the best turn and is where it should be used. The "Christie" which will be described later is much more certain on a hard surface.

Worse Than Pining—"Is the rich young widow pining for her husband?" "Not exactly, but from the way she is making his money fly, it might be said she is wasting away."

"Well," said Snaggs, "I think many dogs have more sense than their masters."

"Yes," chimed in Craggs, "I have a dog like that myself." And yet, he don't understand why they laughed.

## PEPYS AT MCGILL

Monday, Jan. 23rd.—Up and about my business to the Arts Building with my heart all a-quaking in my mouth for fear least the public notices of the examinations should already have gone abroad, but as yet, (and a very great mercy it is) no such evil thing has occurred. News this day from Norfolk of England that my revered uncle, Sir Josiah Pepys, waxes day by day weaker of a phlegm, caught while riding to hounds. I cannot but hope very fervently that he hears naught of my scholastic doings of the last week or he is taken to his fathers by the grace of the Divine Mercy, or he will likely see fit to make certain changes in his testament, not at all to my liking.

A certain idle fellow inquired of me whether I would go with him tomorrow on a snow-boot tramp upon the Mount Royal, and I answered him nay for it seems a very silly thing indeed, and as like as not the women students will wear their unguyed and loosed as is their wont.

## MANDOLIN CLUB IN LIMELIGHT AGAIN

Before Engineering Institute In Windsor Hotel To-night.

To night the Mandolin Club will play at Smoking concert of the Engineering Institute of Canada at the Windsor Hotel. Last night a good practice was held which showed that the club is bound to live up to its present reputation. The programme tonight promises to be of a very high order, and includes among other attractions, selections by the Ap'lo Glee Club. The Mandolinists must be out in full force so that they will not take second place even to this well-known musical organization. The club will contribute two selections to the programme, the first one being at 9.30. All members are requested to be at Peate's Studio at about a quarter to nine where each man will get his music stand. Bring McGill Song Books and the music for the marches and Tuck me to Sleep. Wear ordinary informal dress. The club pictures are now ready and mounted and they may be procured to-morrow night at the Rose Room at the Windsor.

New York is building a beautiful Memorial Hall in honor of its war dead. It is to be four times as large as the Parthenon of Athens, after which it is modeled, and will have a seating capacity of 10,000. On the walls of the amphitheatre, in letters of bronze, will appear the names of the New York City men and women who died in the military service of the United States or any of the Allies. Another feature will be quarters for an employment agency for service men.

## LAFLEUR, MacDOUGALL

## BOTH CAMPS READY FOR HARD GAME

Silver and Blue Will Be  
Prominent.

NEW PLAYERS.

McGill Will Have a Lusty  
Struggle with U. of M.

There are great doings down around the University of Montreal in preparation for the hockey game tomorrow night. The east end students are preparing to make their debut into the hockey world with a colorful scene that will be long remembered by the people who are on hand to watch the contest.

Prior to the game the French students will line up for a parade in which the men of the various faculties will march together decorated with their faculty banners. The parade will be led by a band and will go to the Mount Royal Arena where they will root in a body for their team.

Facing the Montreal Varsity band of rooters will be the McGill men ready with their yells and songs to outdo anything that can be attempted by the Montreal students in the line of cheering. The practice at the Union today will deserve to get all the supporters of the Red and White primed up on the old college songs and teach them a few new ones.

Reports from both of the teams would seem to show that they are on edge for the contest that will decide the college championship of the city. From the Varsity dressing rooms comes the tale that Coach Bert Corbeau has his squad of players all lined up and ready to go the full sixty minutes on the ice. While the wearers of the sky blue and silver uniforms will have among their number many players that have already made reputations for themselves, the real surprise is expected to come from the newcomers to senior hockey on their team. There are many men playing with them who have learned hockey in the smaller colleges throughout the province and will make their debut to the city sporting followers tomorrow night.

Among the men who are more or less unknown to the local fans and will be out in uniform tomorrow night are Lathille, the goal minder of the team, and Desmarieau playing on the defence. Forwards who may be seen in the Montreal uniform when the whistle sounds are Lord, Plamondon, and Sauve, all of them first year men.

The men who have already become well known in amateur ranks and who are playing with the team are sufficiently strong to make a formidable team. The offensive arrangement, composed of Desbiens and the Lamarre brothers, is one of the strongest playing in this vicinity and are bound to give a good account of themselves. Whenever this man Desbiens shoots the managers of the opposing teams who watch the games from the sidelines are just about ready to credit his team with a goal. Stenson is due for a busy night in the nets but he has played against the wily little Frenchman before and will not be taken unawares.

The McGill team held a workout last night and will turnout this afternoon for its last practice before going on the ice for the game. All of the men are reported to be in the best of shape for the contest and will be able to go the full distance without weakening.

Whoever wins the game, there is going to be a merry contest between the two teams and the spectators are going to have plenty of action to watch. The rooters of both colleges will not allow the time to lag when play is stopped so that "a pleasant night should be enjoyed by all those present."

## COMMERCE TEAMS IN FAST FIXTURE

Comm. '23 and '24 Tie in  
Class Hockey Fixture.

A very interesting hockey game was played yesterday afternoon between Commerce 23 and Commerce 24. Each side succeeded in getting one goal, and the game ended with a tied score. On account of the cold weather it was decided that it was inadvisable to play overtime, and the game will probably be replayed in the near future.

Both teams played exceptionally well. Commerce 23 was somewhat handicapped by the absence of two regulars, due to illness. The remaining members, however, put up a good brand of hockey. Brewer, on defence, was almost impassible, and used a poke check to good advantage. Montgomery made some beautiful rushes, which came very near scoring. Graham-Brown, in goals, saved quite a number of hard shots, and played a cool game throughout.

Commerce '24 played good combination. They had superior weight, and were a little faster on their skates than their opponents. Galley, who scored their single goal, showed up well. It is hard to single out any one player for his individual play, as the whole team played well.

The first period was scoreless. In the second period Martin, of Commerce '23, slipped one past Fields. Commerce '24 came back strong, and soon tied the score. In spite of many attempts by both sides, no further scoring took place.

## WEEK-END TRIP AMONG SNOWY LAURENTIANS

Brilliant Prospects for Skiers  
This Week.

TO ST. SAUVEUR.

Programme Drawn up for  
Balance of Season.

The season for the Ski Club has opened with enthusiasm. On Saturday Jan. 14th, the first jumping competition was held on the new jump at the Stadium, taking the form of a novice competition. Good distance was made, considering the condition of the snow, which was very slow for jumping. The results were as follows:

Won by B. Nutting; 2nd, G. Reid; 3rd, G. MacGregor; 4th, D. Foss. Longest standing jump—G. Reid, 28 1-2 feet.

Second—B. Nutting, 27 feet. The first three men will be moved to class "B," debarring them from future novice competitions. Last Saturday, owing to the sad business of exams, no meet was held, but in future, every Saturday afternoon will see some Ski Club activities taking place. A programme is drawn up and is here. Cut it out for future use:

Jan. 28—Week-end trip to St. Sauveur.

Feb. 4—Cross country run.

Feb. 11—Intercollegiate meet at Dartmouth.

Feb. 18—Jumps and proficiency tests.

Feb. 25—Intercollegiate meet at McGill.

March 4—Cross country race.

March 11—Jumps and proficiency.

Plans for the week-end trip have been completed. Arrangements for 35 men have been made for this week-end at St. Sauveur. A successful time is assured. St. Sauveur is situated a short distance from town, in the Laurentians, and is easily the best location for all kinds of skiing. There are hills for the expert, and hills for the beginner. Hills of any desired slope can be found at a short distance from the famous hotel, which establishment provides three square meals per diem for all the hungry crew, and contains a knock-knee piano, on which anyone is permitted to pound, if he fears no vengeance from his fellows.

Some of the party expect to go up on Friday afternoon, and the rest on Saturday. Trains go up on Friday at 4.10 p.m., and Saturday at 8.45 a.m., 1.15 p.m., and 4.10 p.m., leaving from Place Viger Station, and running to Piedmont, two miles from St. Sauveur. An alternative method of travel is to go on the 4.10 as far as Montfort Junction, and then change to C.N.R., which lands you at St. Sauveur itself. Those going will please verify these times.

During next week's trials for the college team will take place, following this programme:— Thursday, 3 p.m.—Jumps and proficiency at Montreal jump. Friday, 5 p.m.—Ski dash on campus. Saturday, 3 p.m.—Cross country run.

Entry lists for these events will be posted in the various buildings at the beginning of the week, and entries will be received up to 6 p.m. Wednesday, Feb. 1st. It is hoped that a large entry will be made, as new men are needed to fill the places left vacant by those of last year's team who have either left college or cannot take part for some other reason. All out to build up a team that will carry off the championship this year, and keep McGill at the leading position in skiing, as she should be.

Not quite so many men have signed up with the Ski Club as last year. More are always welcome. The new jump at the Stadium is in good order now, and open every afternoon. It should prove a great attraction, for it is undoubtedly a splendid practice jump.

Everybody in college who owns a pair of skis is a member of the club. See your faculty representative and receive badge of membership.

A general meeting of the Club will be held on Wednesday at 5 o'clock in Strathcona Hall. A large attendance is wanted, as important business will be discussed.

Remember the time and date, 5 o'clock, Wednesday, Jan. 25. The ice was hard and smooth, and was conducive to fast hockey. In spite of the freezing weather a large crowd of spectators was present to cheer the efforts of the players. The teams lined up as follows:

Commerce '23. Commerce '24. Goal. Graham-Brown . . . . . Falls Defence. Brewer . . . . . Goldie Montgomery . . . . . Robertson Left Wing. Chamberlain . . . . . J. McCombe Centre. Bonavitsky . . . . . Murphy Right Wing. Martin . . . . . Stearns Subs. Burland . . . . . Galley Winslow . . . . . Gilpin Hamilton . . . . . Marpole

## MEDS. WIN IN HOCKEY FROM SCI.

First Game in Inter-Class  
Finals.

SCORE 4-1. . . . .

Good Sheet of Ice Provides  
Fast Game on Campus.

Zero weather yesterday provided what was probably the best sheet of ice this season, for the curtain raiser in the final of the inter-class league. The contending teams were the winners in the faculties of Applied Science and Medicine, viz., Sci. '25, and Med. '22.

The final score was 4-1 for the Medicine team, and although the winners were always the aggressors, the Science youngsters put up a great game, and the former were forced to extend themselves.

For the winners Behan shared the honors of scoring with Imbleau, each obtaining two goals. The stick handling of the former was a great treat to watch, and time after time the puck was carried through the opposing line. However, Fairbanks in goal for Science was all there and made some clever saves. H. Naud was a big man on the defence for Meds., and also demonstrated his ability to carry the puck on several occasions. Altogether, the Medical squad played like a smooth working machine, and more will be heard from them before the termination of the league.

"Robbie" Burland accounted for the lone tally of the losers, and together with Pinhey, showed up well on the forward line. Mace broke up many rushes, and saved the situation on several occasions.

No penalties were administered by Referee McNally, which speaks well for the brand of hockey demonstrated. The players were:

Science '25. Med. '22.

Goal. A. G. Fairbanks . . . . . E. Cooper

Defence. T. W. Mace . . . . . R. McCormick

L. Crepeau . . . . . H. Naud

W. Kyle . . . . . Watson

R. Whittall . . . . . A. McNabb

Wings. J. G. Moore . . . . . T. Behan

H. H. Bourne . . . . . Mackintosh

H. R. Sanders . . . . . Wells

W. H. Pinhey . . . . .

E. W. Mellen . . . . .

Centre. R. Burland . . . . . Imbleau

## COMING GAMES IN BASKETBALL

Practice on Wednesday for  
Saturday Games.

Both the intermediate and junior basketball teams have important games this week, but the turn-out last night was not up to the average.

On Saturday the Westmount A. A. will play the Junior "C" team, and the intermediates clash with the North Branch squads. Intermediate "A" will meet them on their own floor, and the "B" team will fight out their game in McGill territory.

The game in the North Branch gym. is expected to be a hard fought struggle. McGill's "A" team has not lost a game this season, and the North End "Y" has only been defeated once. The "Y" playing in their own gym. have an advantage over the Red and White. They are a strong team with fast travelling forwards, who will take a lot of checking. McGill, on the other hand, have the reputation of being the strongest team in the league, and are looked upon as winners, but it will be a closely fought game.

At the practice on Wednesday night the teams are expected to turn in one of the fastest practices of the year. On this turn-out will decide the results of the Saturday games.

The Senior team is working together in a very satisfactory way, and looks stronger than last year's aggregation.

So far this season, the teams have shown a better brand of basketball than was seen in last season's teams, and several college squads will be seen at, or very near, the top of the different city leagues at the end of the season.

How many Freshmen and Sophomores know many of the good old McGill songs? Buy a song book to-day, and the next time you are singing a McGill song you won't have to hum away to yourself.

## R.V.C. DEFEAT Y.W. HANDILY IN CITY HOCKEY

Score 3-0 in Favor of R.V.C.

LEAGUE SCHEDULE.

Miss Rough and Miss Foley  
Score R.V.C. Goals.

R. V. C. won their first hockey game of the season when they defeated the Y. W. C. A. team by a score of 3 to 0, in a scheduled game of the City League, played on the campus rink last night. The college team played a strong defensive game throughout and gave their opponents no chance of scoring. At the end of the first period the wearers of the red 'tams' had a lead of one goal and they added two more tallies to their total before the contest was ended.

Combination play was lacking in both teams, although the losers showed up better in this respect than did their opponents. The individual rushes of the R. V. C. forwards made up for any deficiencies in their teamwork and they gave the goalkeeper facing them many difficult shots to stop.

The strongest offensive on the part of the Y. W. C. A. team came early in the third period. They made a determined effort to even up the score and almost succeeded in doing so but their rush was shortlived and the collegians recovered quickly and scored twice before the period ended.

Miss T. Rough was the outstanding player of the evening. She played a strong defensive game and was responsible for two of the goals scored by her team. The other tally was credited to Miss V. Foley. The defence of the red and white team was the strongest part of the squad and was undoubtedly responsible to a large extent for the victory.

The game last night was the first one in which the Royal Victoria College team has participated in this season. Their showing would brand them as one of the strong contenders for the league title again this season. The only other game which has been played so far this year was won by the Teacher's team when they defeated the Y. W. C. A.

The teams and summary last night:—

Y. W. C. A. R. V. C.

Goal. M. Scott . . . . . L. Kerr

Defence. E. Thompson . . . . . M. Eliot

I. McKeyes . . . . . T. Rough

Centre. F. Kennedy . . . . . E. Snyder

Wings. C. McLeod . . . . . V. Foley

P. Smith . . . . . G. Robertson

Subs. G. Penny . . . . . R. Grant

C. Wilkinson . . . . . A. Roy

The remaining games on the schedule:—

Jan. 25—Teachers vs M.S.P.E.

Feb. 1—R. V. C. vs Macdonald.

Feb. 6th—Teachers vs R. V. C.

Feb. 8th—Y.W.C.A. vs Macdonald.

Feb. 11th—Macdonald vs Teachers.

Feb. 15th—R. V. C. vs M.S.P.E.

strong are making things travel among the light heavies and middles. Messenger and Cohen and McNaughton are running neck and neck in the 145 lb. while Currie, Howes and Irvine are the leaders among the lightweights. In the 125 lb. class Matthews and Reid are fighting hard while Macdonald and Pheiffer are putting up a great battle in the 118 lb. With such talent there are certain to be some great fights next week.

## Fame

Fame is the tribute which the world pays to the outstanding personalities of a year, a decade, a century. Whether a lovable Prince, a gracious Queen, a Statesmen, Soldier or Scholar, Fame comes to them because each, in their way, gives of their best to make this old world a brighter and better place to live in.

Fame came to Lewis Edson Waterman because his life work was for the betterment of mankind—to make writing easy.

That he successfully achieved his ambition is proven by the millions of people who now—years after his death—continue to carry

through every sphere of daily life. The usefulness of WATERMAN'S IDEAL FOUNTAIN PEN can never be doubted, and its popularity will never wane, for it is the something "bigger and better" that makes writing easier and more efficient.

There are many styles—for character; but only one quality—for satisfaction

## NOTICES

## JUNIOR PHOTOGRAPHS.

The photographs of all Juniors must be taken by the 28th inst. The lists will definitely be closed on that date. In to-morrow's 'Daily' a list and schedule of the various club pictures will be published.

## MANDOLIN CLUB.

All members are requested to be at Peate's Studio at about a quarter to nine. From there the club will go to the Rose Room of the Windsor, so as to be ready in good time to play at 9.30.

There will be a lecture on Anti-Friction Engineering in Room 33 of the Engineering Building at 5 p.m. to-day. A most important subject to all engineering students.

Don't miss it and then be sorry. Get your chum and come along.

The Student Volunteer Band will hold a meeting to-night in Strathcona Hall at 7 o'clock. R. D. Scott, Arts '17, Canadian Secretary of the Student Volunteer Movement, will speak on the aims and policy of the movement, especially as they affect Canadian students.

## SENIOR BASKETBALL.

There will be a full practice for the senior basketball team at the Iliac School from 6 to 7 o'clock this evening.

## BASEBALL.

Final practice for the baseball teams at the Highlanders' Armories on Bleury Street, this evening, from 6 to 7 o'clock. All players should be on hand.

## SWIMMING AND WATER POLO.

There will be a practice to-night at 5.15 p.m., in the Central "Y" tank. All the regulars, together with those men who have been out a few times are requested to turn out to-night. The Intercollegiate meet is less than a month off, and it is important that the team should have lots of practice.

## LIT. EXECUTIVE.

Meeting of the Lit Executive in the Union at 5 p.m. to-day.

## SCIENCE '24 HOCKEY.

There will be a full practice for every player in the year to-day from 4-5 p.m., on the rink in the hollow.

## PARTIALS, ATTENTION!

There will be a meeting of the Partial Society on Tuesday, January 24, at 12 noon, in R.V.C. Common Room. Business — To arrange for the Damsit.

Everybody save the fourth of February.

When?—Saturday, February 4th. What?—The Damsit.

Why?—In aid of the University Settlement.

Where?—R.V.C.

The annual Partial Thés Damsit that is given in aid of the University Settlement, will be held on February 4th.

All arrangements are not yet made, but there are some that are sure to satisfy even the most fastidious taste.

## INDOOR BASEBALL.

The following men are requested to turn out to a general practice at the Highlander's Armory, Bleury St., 6 to 7 p.m., this evening. The first game in the City League is scheduled for Feb. 2nd, so that the two McGill teams will have to be picked very shortly:—

Peacock, Philpotts, Grassick, Puddicombe, Miller, Dreger, McCullough, Campbell, Chamberlain, Gauthier, Magid, White, Zinc, McLaughlin, Moore, Hall, Avison, Moran, Wight, Lanthier, Wallace, Gaboury, Bronson, McKinnon, Carruthers, Radway.

Any others desirous of trying for a place on one of the two teams should also turn out.

## RADIO ASSOCIATION OF MCGILL.

There will be no meeting of the Radio Association to-day. Mr. S. A. Scanthbury, of the Marconi Co., will be the speaker at the next meeting. Subject and date to be announced later.

## NEWFOUNDLAND CLUB.

The Newfoundland Club will hold a skating party at the M.A.A.A. rink, Westmount, on Thursday evening, Jan. 26th, at 8 p.m.

## FOUND.

Owner of a cuff link lost in McGill Union may have same at the Secretary's Office of the Students' Council.

## UNION HOUSE FORMAL DANCE FRIDAY NIGHT

Arrangements Completed for all Details of Evening.

## TICKETS LIMITED.

Much Interest Shown and Many Tickets Disposed Of.

It is evident, from preparations made by the committee in charge of the Annual Union House Formal Dance, that it is going to be a stupendous affair. This committee have been exerting themselves to the utmost in order to make this dance the best of the year, and from all indications they seem to have been successful.

The students, judging by remarks heard about the Campus, evidently intend turning out in a body, and a rush for tickets is expected.

The ball room is being tastefully decorated, and balloons and streamers will play no small part in this important detail. Nothing need be said of them, except, perhaps, to mention the name of the McGill Dance Orchestra.

The efficient handling of the Catering is assured, due to the engagement of Mr. Darville for this purpose.

To date many tickets have been disposed of, and a lively interest in the affair has been evident. Students who wish to attend and who have not as yet procured their tickets are to be reminded that the number will be limited, and the demand probably greatly in excess of the number of tickets sold. The tickets are on sale at the Union, and supper tickets will also be issued.

The patronesses will be:—Lady Currie, Mrs. Laing, Mrs. Whitnall, Mrs. Porter, Mrs. Brown.

## List of Dances and Music.

Extra—Fox Trot . . . . . Tio San  
1—Waltz . . . . . Old Pal.  
2—Fox Trot . . . . . It's You  
3—One Step . . . . . I Don't Know  
4—Fox Trot . . . . . Yoo Hoo  
5—Waltz . . . . . Drowsy Head  
6—Fox Trot . . . . . Georgia Rose  
7—Waltz . . . . . I wonder if you still care for me.

Supper—First Sitting.

Extras:—  
1—Fox Trot . . . . . Why Dear  
2—Fox Trot . . . . . Wabash Blues  
Supper—Second Sitting.  
3—Fox Trot . . . . . Dapper Dan  
4—Fox Trot . . . . . Who  
10—Moonlight . . . . . Gypsy Love Song  
11—Fox Trot . . . . . When the sun goes down  
12—Waltz . . . . . Farewell to Thee

## HIGH SCHOOL GRADUATES' DANCE.

The next informal dance for graduates, their friends, and McGill students, will be held in the High School Gymnasium on Friday, January 27th, at 8.15 p.m. Tickets (\$2 a couple), are now on sale to the friends of the Graduates, McGill students, and the Graduates at the High School office. Adney's orchestra plays for the dancing.

## R. V. C. HOCKEY.

There will be a practice for beginners this morning at 10 sharp. This includes everybody but the team. By order.

Everybody turn out on time. The team can come if they want to.

## SONG BOOK.

The Presidents of Classes are requested to see that all Song Books issued to their respective classes be returned to the Secretary's Office of the Students' Council.

## FORMER TRAFALGAR STUDENTS.

There will be a meeting of all Trafalgar "old girls" to reorganize the old girls' club which has been dormant for some time. This meeting will be held at the Trafalgar Institute on Tuesday afternoon, Jan. 24, at four o'clock. It is hoped that all former Trafalgarites attending R.V.C. will pay attention to this notice.

## COMMERCIAL SOCIETY.

A banquet will be held on Thursday, January 26th, at 8 p.m., in the Union. Tickets are now in the hands of the class representatives.

## FOUNTAIN PEN.

The student who left his pen in the Physics Lab on Wednesday afternoon may claim same from "Sam."

## ATTENTION.

Will the "gentleman" who accidentally or intentionally exchanged his old worn out overshoes for a new pair belonging to someone else, without the owner's consent, on Jan. 19, in the Arts Building, kindly call at the Janitor's Office, and receive his old pair of overshoes as well.

## R.V.C. UNDERGRADUATE SOCIETY.

There will be a meeting of the R.V.C. Undergraduate Society on Friday, Jan. 27th, at 1 p.m., in the Common Room. The chief business of the meeting will be in connection with the Student Relief Campaign, so a large attendance is hoped for.

## BIG GATHERING OF ROOTERS TONIGHT

Union Ball-room Expected to Be Filled by the Lusty-Lunged.

In preparation for the Laval-McGill game which takes place on Wednesday evening next, a practice of the Rooters' Club will be held in the Union ball room to-night at 5.15 sharp.

The work-out will be followed by a sale of tickets for this game, and the practice will be a real old-fashioned pep rally.

In view of the fact that the inter-collegiate league is already under way it is urgent that every undergraduate should be at this practice to-night, and get his old lungs in action again.

The whole south end of the rink has been reserved for McGill rooters, and seeing that Laval has the north end it means the south end must be filled to the rafters.

The practice will last 15 minutes only, and a few new yells will be tried out, as well as all the old stand-bys. It is essential that the practice get away to a flying start at 5.15 sharp, so that the ticket sale will be over in time to let every one home for the first sitting of supper.

All patriotically inclined McGill men should make a strong point of attending the practice. Laval is strong in both team and rooters. Our team equals theirs. Will our rooters go them one better?

## PHOTOGRAPHS FOR ANNUAL WANTED NOW

(Continued from Page 1.)

## R. V. C.

1. Millen, Harper, F. Perry. Commerce.

M. A. Gahoury, W. C. Gamble, C. Graham Browne.

Law and Architecture are not included in this list.

Then there is the matter of club photographs. All clubs and organizations listed below are requested to make arrangements immediately at Notman's Studio, Union Avenue. If appointments have not been made by Wednesday, the Photograph Editor will be forced to make them himself, and those to be photographed will have to be on hand at the hour published by him in the "Daily." It is preferable that each executive make in hour convenient to themselves.

Arts Undergrad.

Maccabean Circle.

If any of the above societies have had their pictures "shot" they are requested to hand the glossy print of same to their faculty representative or the Annual Board.

Abie—My boy Ikey is a director in a bank.  
Adams—Vell, vat does he do?  
Abie—He directs postal cards.  
Adams—My boy is a draft clerk in a bank, too.  
Abie—He is?  
Adams—He is, yes. He opens and closes the doors for the customers.

It was the first case ever tried; Stony Gulch, and the jury had sat for hours arguing and disputing. At last they struggled back, and the foreman, a tall mountaineer, expressed the general opinion. "We don't think he did it," he said slowly, "for we allow he wa'n't there; but we think he would of if he'd had the chanst."

## HOCKEY TICKETS.

There are still a few box, promenade and reserved tickets for the University of Montreal - McGill game on sale at the Union. Any desiring these must obtain them before eight o'clock to-night, when they will be transferred to the Arena for sale to the public.

Rooters' tickets will go on sale immediately after the practice. These are limited in number.

## Prices.

Box and Promenade . . \$1.30  
Reserved . . . . . .80  
Rooters . . . . . .35

## AT THE THEATRES

## CAPITOL.

Those who enjoy a thrilling evening should see what the Capitol Theatre has to offer this week. "Saturday Night" presents a varied combination from the tenement house life to the most exciting of all auto accident on a trestle bridge, and is worth while going to see, especially if a person is subject to the thoughts of recent exams. This production of De Mille is a sample of very good acting, while the attire of those taking part is both excellent and unique.

The musical programme is usually a distinctive feature of the Capitol entertainment, but this week, under the direction of J. J. Shea it affords a treat to both the mediocre and musical patron.

The report of the programme would be incomplete without mention of the news film, which is certainly a decided attribute.

It is worth noting that on Wednesday of this week there will be two benefit performances only, in aid of the Iverley Settlement.

## PRINCESS.

Aside from the fact that fifty per cent of the bill is composed of dance acts, the programme at the Princess is of its usual satisfying nature. It hardly raises any howling enthusiasm, but somehow the Princess never gets mediocre enough to arouse one's ire.

It is rather difficult to pick the star item, but the management chose Florence Walton and Co., and their choice seemed to have ample foundation. Miss Walton knows the art of dancing from A to Z and brings two capable male partners who know it about as far as X. She is also accompanied by a violinist, Maximilian Dolin, who performs truly marvelous things upon his instrument. The Argentine Tango was especially well done, and Miss Walton and Alexander Vlad displayed complete mastery of its intricacies.

Craig Campbell has a pleasing tenor voice, and the audience expressed the opinion that he was quite good. Mr. Campbell, however, seemed to have already decided that for himself, which rather spoiled his act. Billy Potter and Effie Hartwell present a song and dance melange, in which the dancing is well executed. Raymond Bond presents a fairly acceptable comedy skit, taking as his scene of operations the buyers' office of a large department store.

The Wilson Aubrey Trio, comedy gymnasts and wrestlers, have few equals in the matter of continuity and pantomimic comedy. Harry and Denis DuFort get some clever effects in their dance steps; their patter is fair, but one or two of their jokes lean a trifle to the ancient side; in particular, the one about Hebrew coffee.

Low Brice, "the little Jewish boy," has a red-hot line of patter and is quite ingenious with his feet. The last act is "worth sitting through. It is billed as "Shadowland, a fantastic spectacle," and not only gets some wonderful light effects but presents very good interpretative shadow dancing.

## CORNELL TO TEACH HOTEL MANAGING

Course Praised by New York's Leading Hotel Men.

New York City hotel men are optimistic with regard to the possibility of the hotel course which has been under consideration at Cornell University for several months. L. M. Boomer, of the Du Pont-Boomer Hotels, George M. Sweeney, of the Hotel Commodore, and Edward M. Tierney, of the Hotel Ansonia, were the New York representatives who appeared before the Budget Committee in Albany, and all were hopeful that the appropriation of \$11,000 a year for the course would soon be made.

"According to the present indications it looks like we will be able to have the course inaugurated at Cornell by the Spring session," said Mr. Sweeney. "The course would train executives from the ground up. It would cover a period of four years, and during that time the vacations would be spent in one of the large hotels where practical experience could be had. This would mean that at the end of the four-years a graduate

There will be a meeting of the News Board on Thursday evening, the 26th, at 7.30. A full attendance is essential.

## NEW EXAMINATIONS FOR COLUMBUS MEN

Essay Tests to be Supplemented by New System

Steps have been taken by Columbia College to modify the character of examinations in many departments. Side by side with the traditional essay type of examination a new aid has been introduced, which, according to Dean Herbert E. Hawkes, affords no chance for the bluffer to exercise his arts and removes the examination from the category of sporting propositions.

"The clever student," says the Dean, "whose verbose knowledge of a few topics can be stretched so as to appear to advantage whatever questions may be asked, is left stranded. With the new examinations he is shooting with a rifle instead of with a shotgun."

Columbia's departure was the outcome of conditions said to prevail generally in American colleges and schools, and of which Ben. D. Wood, assistant to Dean Hawkes, said recently: "It is a notorious fact that college grades and high school marks are highly inaccurate and unreliable." Mr. Wood said his conclusions were based upon extensive researches at Columbia and other universities.

Columbia's plans to meet the situation were contained in a report by Dean Hawkes to President Nicholas Murray Butler, given out recently. Owing to the variation among instructors in determining the grades of students, in attempting to compare the results of the mental tests with the college marks, Columbia is using a scale only 70 per cent. accurate.

"Hence a correlation of more than 70 per cent. between the college grades and anything else would be a chance result and without significance," says Dean Hawkes. "Since we now have a correlation of 65 per cent. with the mental tests it appears that we have proceeded nearly as far in this direction as is possible, until the grading system has been improved."

"Not only is the present system of grading unsatisfactory on account of the variation due to the personal equation noted above, but also owing to the fact that there is no agreement, even in the same institution, as to what they are trying to measure, what units they propose to use, and where the zero point should be placed. Figures giving the accuracy of the grades in certain courses in Columbia College have been prepared according to principles accepted by those most familiar with such matters."

"It appears that the accuracy of the marks during the year 1919-1920 of a large number of students ran from 35 to 68 per cent. in the various departments, while the accuracy of the combined grade for the entire work of a session is 70 per cent. Consequently, in attempting to compare the results of the mental test with the college marks, we are using a scale that is only 70 per cent. accurate. Hence, a correlation of more than 70 per cent. between the college grades and anything else would be a chance result and without significance. Since we now have a correlation of 65 per cent. with the mental tests it appears that we have proceeded nearly as far in this direction as is possible until the grading system has been improved."

"This difficulty has been attacked by modifying the character of our examinations. The kind of examination which has been uniformly used in the more descriptive subjects like history and economics may be described as the essay type. A relatively small number of questions are presented to the student who is supposed to write a little essay in answer to each of the questions, all during the two or three hours of the examination period. Any one who has spent days and nights in reading the results of this process does not need to be informed regarding the complexities of the problem of grading the student."

"It is probable that in the essay type of examination there is a margin of error of from 10 to 25 per cent. which is entirely eliminated in the new examination. Furthermore, the new examination covers the course to an extent utterly impossible in the essay type."

ate would actually have five years of training. Any applicant to the school would have to be endorsed by the Hotel Association of the State and tuition would be free to any one in the State."

"There is a dearth of competent hotel employees, and such a course at Cornell would have the endorsement and co-operation of the hotel men generally throughout the country, and might later be adopted by other big universities," said Mr. Boomer at the Hotel McAlpin. "The war brought a great change in the hotel worker, and the old-time attitude of servility has been replaced by efficient service giving and courtesy. Young men now enter the hotel business just as they would banking, railroad or commercial life, to find a future in it, and the hotel man must offer the same attractions of commensurate pay and advancement."

## MOTHER HOOTCH RHYMES.

There was a man of our town  
And he was wondrous wise,  
He tasted of wood alcohol  
And blinded both his eyes.

Mary had a little flask  
Just plenty for one stew,  
And everywhere that Mary went  
The perfume would go too

And when he found his eyes were out  
In spite of all the pain,  
He took another shot of rum  
And gained his sight again.

Tell a tale of 6 pence  
A bottle full of rye,  
Four and twenty dollars now  
Will the same booze buy

When the flask was opened  
The boys began to sing,  
Oh did you hear the ambulance  
Drive up—ding, ding-a-ling?  
—Columbia Spectator.

"Did you hear about the defacement of Mr. Skinner's tombstone?" asked Mr. Brown a few days after the funeral of that eminent captain of industry.

"No, what was it? inquired his neighbor curiously.

"Someone added the word 'friends' to the epitaph."

"What was the epitaph?"

"He did his best."

Why not buy that song book to-day—  
At the Janitor's Office.
